Mertensia Virginia

Virginia Bluebell
(Illustrated)

Charming native wild flower. Drooping bell-shaped blooms in handsome clusters. In the bud they are pink; in full bloom they become a pinkish lavender which gradually deepens to a lovely shade of bright blue. The plants grow to a height of about 18 inches and the foliage is a pleasing light green.

We recommend them for planting in woodland nooks, under trees and shrubs, or in shady portions of the perennial border. They bloom at the same time and combine beautifully with yellow Daffodils. Each 45c; 3 for \$1.15; 10 for \$3.65; 25 for \$8.65; 100 for \$33.00.

Plant Mertensia with Golden Daffodils. They bloom at the same time and together they provide an exceptionally charming contrast.

Daffodils or Narcissi?

Daffodils or Narcissi? Both of these names are considered to be correct for all the various types offered on this page. "Daffodils" is the common or English equivalent of the botanical word "Narcissi." It is true that "Narcissi" is the name that is almost invariably applied to "Paper Whites" and to the Poeticus and Poetaz groups, but don't let the use of either word confuse you. They both mean the same thing.

"Jonquils" is another word that is often misused. It is the correct name for the group of Narcissi (or Daffodils) listed below under the heading "Jonquils." The name "Jonquils" should never be applied to the large golden "King Alfred" (pictured to the left) nor to any of the "Large Trumpet" group. It is often done, but it is definitely wrong.

LARGE TRUMPET DAFFODILS

These spectacular Narcissi are often all yellow but they may have either white or pale yellow perianths with trumpets of a deeper yellow shade. The trumpets are always as long as or longer than the perianth segments.

AEROLITE. A magnificent, large, golden yellow trumpet, with a deep, primrose perianth. A beautifully proportioned bloom; graceful despite its size. 3 for 65c; 10 for \$1.90; 25 for \$4.50; 100 for \$17.15.

DAWSON CITY. A perfect flower; golden yellow throughout. Broad flat perianth, with smooth trumpet flared at the mouth. 3 for 70c; 10 for \$2.10; 25 for \$5.10; 100 for \$19.35.

KING ALFRED. (Illustrated.) A magnificent Daffodil with a broad perianth and large, frilled trumpet of a rich golden yellow throughout. The most popular and most widely used variety for forcing. Mammoth bulbs, 3 for 65c; 10 for \$1.90; 25 for \$4.50; 100 for \$17.15. Jumbo bulbs, the largest and finest that the season produces. 3 for 80c; 10 for \$2.35; 25 for \$5.65; 100 for \$21.55.

LOVENEST. The daintiest of all the Trumpets and one of the few members of the "Pink Daffodil" class. Star-shaped white perianth; trumpet soft yellow turning to apricot-pink. 3 for \$1.15; 10 for \$3.35; 25 for \$8.00; 100 for \$30.35.
